Report of School Board.

The Superintendent of Schools, Mr. F. S. Libbey, presents in a through manner the growing emphasis on accuracy of pupils in the elements of arithmetic by more attention to addition, subtraction, multiplication, and division, and small fractions, while including but little of operations that will not be required in ordinary life.

The School Board seconds the appeal of the Superintendent for appreciation of the work of Rev. Roy D. Thompson in his work in supervising games and exercises for the boys and girls two afternoons each week, a work that in some places is done by a paid supervisor.

There is some likelihood that the bus line will decline to contract to carry our children to Franklin after the close of the present school year.
